

Flexible Wave by Wang Zhe & Bacon Magic

A visual card miracle from Wang Zhe & Bacon Magic. A wavy ESP symbol on a card comes to life - it blows onto a freely selected card, then jumps through the deck to find the spectator's choice. No sleight of hand. No misdirection. Reset in seconds.

What Happens

A spectator freely selects any card and loses it in the deck.

You blow toward a wave-symbol card on the table - the symbol literally flies onto the back of the top card.

The symbol then vanishes and reappears on the spectator's selected card in the spread.

Everything is examinable. Nothing to hide.

Why It Works

Self-working. The gimmick does the work. Beginner-friendly.

Instant reset. Finish one table, move to the next. No setup between performances.

Invisible method. Blue Bicycle backs provide natural camouflage. The secret hides in plain sight.
