

## Gaff Deck by Bigmagie

Gaff decks are highly appreciated by magicians: they allow you to obtain cards that are sometimes difficult to find, or avoid having to sacrifice several decks to perform certain effects.

With this **Gaff Deck**, you will find all the cards needed for some of the most famous effects, such as Wild Card, MacDonald's Aces, as well as most routines requiring double-index cards.

The deck consists of 56 cards. Inside, you will find very special cards, such as cards printed with multiple backs or multiple faces, double-index queens, kings and jack, double-faced cards, double-backed cards, white-backed and multicolored Aces, as well as more classic cards such as jokers or duplicate cards, for example queens of hearts used in many effects.

We hope some of these cards will inspire you and help you create your own effects.

- 56 cards (Bicycle Rider back) printed by US Playing Cards Company
- An assortment of Index Gaff Cards
- The deck is sold without instructions; your creativity doesn't need them.
