

Sketch8 - Bühnentrick

The app that turns imagination into reality!

Sketch8 is a revolutionary application that transforms a simple conversation into an impossible miracle. The magician claims to have found a drawing he made when he was 8 years old... feeling an irresistible impulse to take a photo of it because he sensed he would meet someone with a special connection today... maybe you?

The spectator describes a drawing they imagine they made at the age of 8... and when they finally open the photo you sent at the beginning, they discover a childlike sketch that matches their description perfectly — even the signature.

Powered by advanced AI and designed for professional artists and magicians, Sketch8 offers:

- Hyper realistic drawings that genuinely look like they were made by a child.
- A guided workflow that makes the effect 100% reliable, practically automatic, and hassle free.
- Instant sharing through WhatsApp, Telegram, email, or any platform.
- Unlimited creativity: the spectator can describe absolutely anything, no matter how crazy or specific.
- Changes of mind: the spectator can change their mind again and again — shapes, colors, details... Sketch8 AI listens to the audio and interprets their final decision with 100% accuracy.
- A lasting emotional impact: they keep an impossible and deeply personal photo.

Sketch8 is not just an app. It's a story, a memory, and a moment of destiny delivered straight into the spectator's pocket.

Destiny, in your pocket.

Included:

- Lifetime license with access to the app and all future updates, plus 100 recharge tokens (valid for 100 shows).
- Option to purchase additional tokens at a very affordable price.
- Access to a private Facebook group where users share ideas, presentations, improvement suggestions, and stay updated on all news and updates.
