

Bronzini's Wallet by Embajada Mágica

How many magic wallets are sitting in your drawer right now because they only do one trick or look completely unnatural?

Welcome to the last utility device you will ever need to carry. Produced by Embajada Mágica and meticulously designed by Carlos Augusto Bronzini alongside Alejandro Diaz, the **Bronzini Wallet** was built from the ground up to be the most versatile tool on the market. This is not a bulky, suspicious prop. It is an everyday bifold wallet, handcrafted from premium Argentine leather, that looks and feels like a luxury designer accessory.

Whether you are performing table-hopping magic, securing bookings at high-end corporate events, or hitting the streets, the Bronzini Wallet adapts to your repertoire.

Imagine having the power in your pocket to perform:

- Signed Card to Wallet (No-Palm): Clean, direct, and resets instantly. Perfect for workers who need to move from table to table without missing a beat.
- Undetectable Peeks & Predictions: Secure the exact information you need right under their noses for devastating mentalism routines.
- Visual Changes & Switches: Bills, silks, and cards transform at the speed of light.
- Physical Productions: Pull billiard balls, decks of cards, or even small bottles from a flat accessory, leaving your spectators breathless.
- Steals & Loads: An ingenious structural design that works with your natural movements, not against them.

The Bronzini Wallet

does not force you to change your style; it elevates what you already do. Step out the door with one pocket wonder and a full show ready to go.
