

Perfect Stab by Hank (Red)

Perfect Stab

is a highly visual and dramatically powerful signed card revelation. There are no suspicious moves and no lengthy buildup-just a direct and stunning impact. It quickly sold out at the 2026 Blackpool Magic Convention.

The magician shuffles the deck and asks a spectator to freely choose and sign a card. The signed card is returned and the deck is shuffled again. The magician then introduces a knife and invites the spectator to stab it directly into the deck. At the moment the blade penetrates the cards, the spectator genuinely feels the resistance and sensation of piercing through. When the deck is spread, the knife is seen lodged precisely at the signed card.

This is more than simply "finding a card"-the spectator personally takes part in the dramatic moment.

What's Included:

- A high-quality custom storage knife
- Consumable materials for approximately 400 performances
- A complete special gimmick set
- Durable structure designed for professional use

Features:

- Strong visual impact with a real knife
- High audience participation
- Authentic tactile experience
