

Forcing Card Pad

The effect is simple and incredibly powerful: the performer flips through a small pad filled with pictures of different playing cards. A spectator then opens the pad at a random point and remembers the card on that page. Amazingly, it matches the sealed prediction that has been in full view from the very beginning!

To the audience, it will look like a completely ordinary pad... but it hides one of the most powerful forcing systems in the world!

- Measures just 11 x 9 cm. So it is convenient to carry as well.
- It does all the dirty work for you, allowing you to focus on the presentation.
- Of course, the pad can also be your secret ally within a larger routine.

NOTE: The card that will be forced may vary from pad to pad, but it is not possible to choose it.
