

Army Men Playing Cards

Deploy the nostalgia with **Army Men Playing Cards** - the definitive tribute to the "Little Green Men" that have commanded toy boxes for over 70 years.

Inspired by the classic 54mm molded figures made famous by pioneers like Louis Marx and Tim Mee Toys, this deck transforms the legendary skirmishes of the backyard into a high-quality gaming experience. Whether you're a collector, a veteran, or a fan of vintage Americana, Army Men Playing Cards brings the spirit of the infantry to your next card game.

Product Features:

- **The Green vs. Tan Conflict:** In honor of the most famous plastic factions in history, the Spades and Clubs represent the classic Green Army, while the Hearts and Diamonds feature their long-standing rivals, the Tan Army.
- **Iconic Molded Poses:** Each face card is custom-illustrated to replicate the iconic poses of the classic figures (Officers with pistols and binoculars).
 - Queens: Tactical Support (Radiomen and Field Medics).
 - Jacks: The Specialists (The iconic "Mine Sweeper" and the Flamethrower).
 - Aces: Feature bold, oversized silhouettes of the classic standing Rifleman and Bazooka-man.
- **Professional Quality:** While the design celebrates "unbreakable" low-density polyethylene, the cards themselves are printed on premium, casino-grade linen cardstock with an air-cushion like finish for superior shuffling and handling.
- **The "Oval Base" Detail:** Every card face is framed with a subtle border inspired by the classic plastic bases that kept your soldiers standing during every living room invasion.

Why You Need This Deck:

- **A Childhood Classic, Reimagined:** We've captured the monochromatic charm of the 1950s and 60s playsets and adapted it for the modern tabletop.
- **Perfect for All Ages:** A great gift for history buffs, tabletop gamers, and anyone who remembers the thrill of opening a fresh bag of soldiers.
- **Durable Design:** Built to withstand hours of "combat," these cards are as

rugged as the soldiers that inspired them.
