

IARVEL Keychain by IARVEL MAGIC

The larvel Keychain

larvel Keychain

BASIC EFFECT

KEY FEATURES:

- **Ordinary by Design**
Designed to resemble an everyday luggage tag, hotel key tag, or price label, the **larvel Keychain** attracts no suspicion. It blends naturally into your performance and feels perfectly at home in any setting.
- **Slim, Lightweight & EDC Ready**
Measuring just 75 mm × 35 mm with a thickness of only 5 mm, the larvel Keychain is slim enough to carry every day while remaining large enough to deliver clear, highly visible revelations.
- **High-Contrast Display**
The large high-contrast display produces crisp handwriting, text, poker suits, playing cards, numbers, and other graphics with outstanding clarity. Subtle pixelation has been intentionally incorporated to mimic real electronic displays, creating an appearance that feels completely authentic.
- **Larger Screen, Bigger Possibilities**
The generous display area makes information easier to read, easier to peek, and more versatile during performance. It can even be used for real-time writing demonstrations, allowing your audience to watch information appear naturally as you pretend to write them on the device.
- **Powered by the larvel Ecosystem**
The larvel Keychain integrates with the larvel ecosystem, supporting multiple play modes and input methods. Connect using the larvel App, Remote Pro, larvel Pads, Post-it Pads, Impression Boards, larvel Cards, voice input, and more to create routines that fit your own performance style.
- **Connect Up to Three Devices**
Unlike traditional electronic props, the larvel Keychain can connect with

up to three different larvel devices simultaneously, allowing each to send independent instructions and dramatically expanding your performance possibilities.

- **Offline Performance Mode**

Leave your phone, remote, and other accessories behind. Offline Mode allows you to preload routine materials like texts, suits, numbers etc. before your performance, giving you the freedom to perform anywhere without relying on a live connection.

- **Built for Every Performance**

Whether you're performing close-up, strolling, parlour, stage, or corporate events, the larvel Keychain is built to perform reliably whenever you need it. Strong, portable, and dependable, it's a utility device you can trust.

- **Long Battery Life**

Spend less time charging and more time performing. A single charge provides extended battery life, keeping the larvel Keychain ready whenever a chance presents itself.
