Zig Zag 2

Performing one of the most iconic illusions in magic in a close-up setting is now POSSIBLE!

Take a playing card from your deck, for example, the Queen of Hearts.

Take two special plates from your pocket and place the Queen of Hearts between them.

The plates have openings that keep the card clearly visible throughout the entire effect!

One, two, three… a simple magical gesture… and the Queen of Hearts begins to BEND INTO A ZIG-ZAG!

The effect is TRULY INCREDIBLE!

The Queen of Hearts visibly splits into three separate sections, right before your spectators' eyes!

Then, with another magical gesture, restore the card to its original shape. And the most amazing part? **EVERYTHING CAN BE EXAMINED!**

AN ASTONISHING ILLUSION!

- An unforgettable magical moment for your audience
- Self-working and easy to perform
- An ingenious, invisible method!
