Blank Marked Deck (Bicycle BDM) by Yoan Tanuji

"Everything in magic may have already been created... but not by you."

What if it’s time to start something new? To bring fresh ideas to life. To create, adapt, personalize, and perform.

With the BMD, it's all possible!

But what exactly is behind these three letters? Not just another trick, but an incredible tool created by Yoan Tanuji, a renowned mentalist and creator of some of magic's biggest bestsellers.

BLANK MARKED DECK – a limitless world of customization.

Yoan has used blank cards in his routines for years, and his hugely successful SNOW DECK was a testament to his creativity. But for a while, he’s been working on another secret weapon.

Printed in 2022 by US Playing Card Company, and first introduced at the 2023 Rendez-Vous Convention in Paris, Yoan now unveils his Blank Marked Deck. The idea of endless customizable possibilities for your routines is truly thrilling, and now, for the first time, Yoan is making this deck available to you!

Picture this:
A deck of blank, white cards with a Bicycle Maiden Back, that is marked. What can you do with it? Absolutely anything! The unique markings feature both letters and numbers, so you can write words, names, countries, numbers, lottery balls, or even create your own drawings.

From simple effects to complex routines, the impact is always huge— and with thousands of presentational possibilities, the potential is endless.

The instructional video will walk you through Yoan’s “killer” routines with the Blank Marked Deck, helping to unlock your creative potential and guide you in developing your own unique performances—routines that can be performed anywhere, anytime!

Prediction, divination, extraordinary memory feats, personalized creations,

spectator interactions—you'll have everything you need to move seamlessly between mentalism and magic.

As always, Yoan Tanuji will guide you, teach you, and surprise you with this groundbreaking creation!

Key Features:
100% customizable
Routine ideas included
Create your own signature routines
Designed by Jean-Charles Briand, an expert in marked decks
