

## Ultimate egg bag

A classic game that will never fade. Show the bag empty, make some magical gesture and an egg appears inside the bag. Put the egg in a hat and magically it will disappear from there and will reappear in the bag. The performer removes the egg from the bag, and places it in his pocket. It vanishes from the pocket and reappears in the bag.

- Many other routines are possible.
- Excellent for those who make shows for children.
